ATTACHMENT 4.19-B PAYMENTS FOR MEDICAL AND REMEDIAL CARE AND SERVICES

4. The agency will make prospective payments to outpatient hospitals based upon Medicare principles and the above exceptions using the CMS 2552-10 Report, Worksheet C, Part 1 lines 37-68 as submitted by the hospitals to determine the Medicare outpatient cost-to-charge ratios (CCRs) for the ancillary cost centers for each hospital. All participating hospitals must submit their Medicare cost reports to the agency within 150 days following the end of their fiscal year. For each hospital, the agency will use average of the ancillary CCRs for that hospital to calculate the hospital-specific reimbursement percentage to apply to outpatient charges from that hospital to determine the prospective Medicaid payment.

The remaining instate hospitals will be reimbursed at 90% of billed charges. Hospitals' charges shall be uniform for all payers and may not exceed the usual and customary charges to private pay patients.

For claims with dates of service from July 1, 2013 through June 30, 2014, the amount of reimbursement for outpatient services in instate DRG hospitals that meet the criteria to be designated as Medicare Critical Access or Medicaid Access Critical will be increased over the State Fiscal Year 2012 calculations by 3.0%. For outpatient services in instate hospitals that do not meet those criteria, reimbursements will be decreased by 2.2% over the State Fiscal Year 2013 calculations. Medicare Critical Access Hospitals are those that meet the criteria of the regulations at 42 CFR 485.606. Medicaid Access-Critical hospitals are those rural community hospitals which provide access to essential health service (emergency, primary, acute, and nursing care) within a service area where no other (or it is likely that no other) provider of such essential services exists.

Reimbursement for outpatient services at out-of-state hospitals is calculated at 30.85% of the hospitals' usual and customary charges.
